has successfully completed the following openSAP course:

Software Design for Non-Designers

Instructors: Scott Klemmer, Andrea Anderson

This six-week online course was held from October 2 through November 14, 2018. It comprised 2-3 hours of learning effort per week, weekly assignments, and 1 peer-graded assignment.

The course covered the following topics:

- Design thinking, design practice, and the language of design
- The software interface design process, roles and concepts
- Understanding the needs of the people you are designing for
- Matching product design to the work of the user
- Simple, yet impactful considerations when design software applications
- A peek behind the scenes of how software design works at SAP

Maximum score possible for this course: 60 points.

The candidate scored **40.5 points (67.5%)** by working on weekly assignments.

Dr. Bernd Welz
Executive Vice President and
Chief Knowledge Officer
SAP Products & Innovation

Andrea Anderson
Instructor

Walldorf, Germany, November 13, 2018
